Using the search criteria find the item that needs to be changed.

Select the item and change the list price.

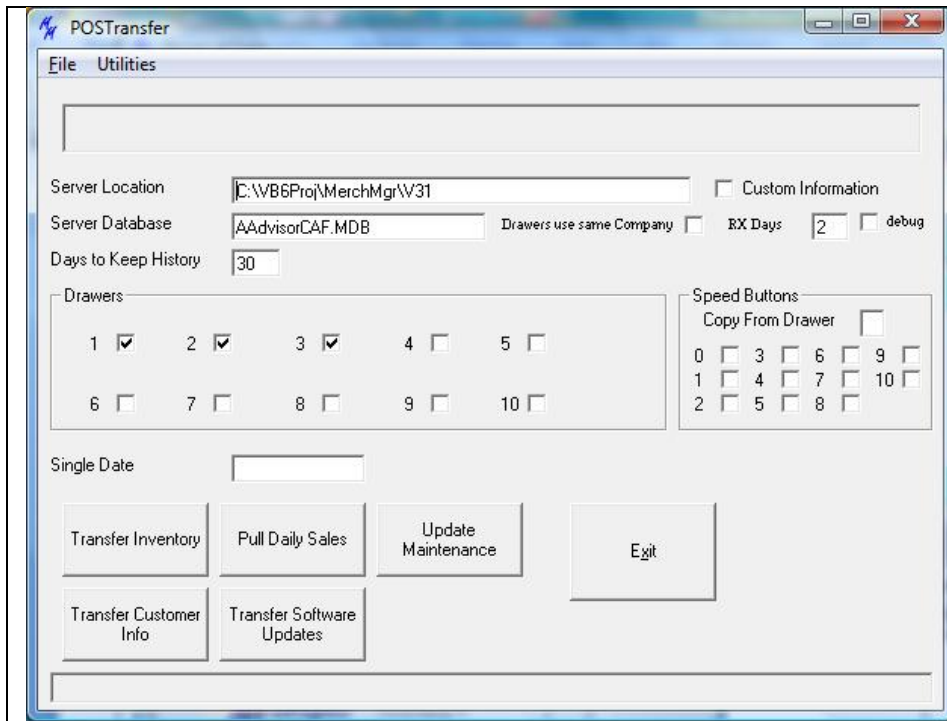

Move the cursor off the line to save the changes.

Next, transfer the price changes to the restaurant terminals.

To transfer the item changes to the Restaurant terminals, select Point of Sale – Utilities – Load Server.

Next, transfer the price changes to the restaurant

Select Transfer Inventory which will update each Restaurant terminal with price changes, New Items, and menu item changes.
